

# WEBINAR SERIES

## Developing an Effective and Compliant CMS Emergency Preparedness Program (EPP) for Outpatient Facilities and Home-Based Care

(ASCs, CMHCs, CORFs, ESRD Facilities, HHAs, OPOs, PACE, FQHCs)

Catastrophic hurricanes, floods, tornadoes and terrorism are a few disaster realities of recent years that served as the catalyst for the new Centers for Medicare & Medicaid Services (CMS) Conditions of Participation. These detailed requirements are applicable to all Medicare and Medicaid participating providers and have a significant effect on Post-Acute Providers as well. This four (4) part webinar series will:

- provide a clear overview of the new requirements.
- detail the components of a comprehensive Emergency Preparedness Program (EPP).
- guide providers on how to develop policies and procedures.
- clarify changes in training and testing requirements and steps to comply.

With the enforcement of new regulations commencing on **November 15, 2017**, this program will give providers the knowledge necessary to develop compliant and effective EPPs.

## FOUR (4) 1-HOUR WEBINARS – NO COST TO PARTICIPATE October 4, 5, 12 & 26, 1:30 - 2:30pm (EST) Presented by RBC Limited Healthcare & Management Consultants

### TOPICS by SESSION
