

Developing a Healthcare Facility Fire Door Inspection Program

Recorded Webinar Education

NEW!! We provide guidance for the updated CMS requirements
(related to CMS S&C Memorandum 17-38-LSC)

The adoption of the 2012 edition of the Life Safety Code® resulted in new requirements for healthcare facilities, with the annual fire door inspection requirement leading the list. Our recorded webinar will clarify these requirements, outline an inspection process, present an overview of inspection criteria, and provide sample documentation.

A comprehensive program includes inventory, inspection, testing, repairs and documentation. Your first "annual" inspection should be completed by January 1, 2018 to be in compliance.
The clock is ticking!
