+ Miscellaneous Provisions:

1. Proprietary Services – You agree that all materials and webinars are licensed to you for use only by you and your staff and only at the Location(s) specified. Accordingly, you understand that any unauthorized use, copying or distribution of any element of the Services outside of your organization is strictly prohibited and constitutes a violation of U.S. Copyright Law.
2. Disclaimer – You agree that RPA has made its best efforts to educate on The Life Safety Code® (2012 Edition) for Hospitals. Facilities are requested to ensure that all applicable local and state codes are followed and RPA is not responsible for changes in the Code or interpretation changes occurring following the development of the webinars.
3. Acquisition – If the organization acquires additional facilities, these facilities can be added at the fee outlined in the Fees section. The total number acquired by the organization will be utilized to identify which category of pricing is applicable.

Life Safety Code® (2012 Edition) Nursing Home Webinar Series

The Life Safety Code® (2012 Edition) Hospital Webinar Series Description

On July 5, 2016, CMS adopted the 2012 edition of the Life Safety Code®. Survey agencies, including CMS and The Joint Commission are expected to commence surveying to the 2012 edition on November 1, 2016. This does not leave healthcare organizations a great deal of time to internally educate on the new Code and assess internal compliance.

This Webinar series contains the same information provided during our on-site Life Safety Code® training programs. The webinar format offers the convenience of participating from your desktop and provides for on-demand viewing of the material thereafter.

Each webinar in the 6-part series will be a dynamic workshop, utilizing real-world examples, group exercises and realistic survey scenarios to explore how the 2012 edition of The Life Safety Code® applies. The content will be geared toward a diverse audience, including compliance managers, accreditation managers, facilities managers, life safety specialists, architects, engineers, and maintenance personnel.

Attendees are advised to have a copy of the 2012 Edition of the Life Safety Code® for reference during the webinars. To purchase the code book online from the NFPA [click here](#).

SESSION OUTLINE

+ Session 1:

General Requirements for Healthcare

- Top Survey Deficiencies
- Overview of the 2012 Edition of The Life Safety Code® & CMS Final Rules
