

(ONLINE + ON-DEMAND) *Surgical Fire Training*

SURGICAL FIRE TRAINING ANYWHERE, ANYTIME

OUR SURGICAL FIRE TRAINING EXPERTISE IS NOW AVAILABLE TO SURGICAL TEAMS ON-DEMAND

Training your staff is essential, but getting everyone in a classroom can be tough. Through the Jensen Hughes Academy (JHA), we have Surgical Fire Training that offers:

- + Efficient and self-paced learning—anytime, anywhere
- + Trusted Expertise – Over 43 years of experience in protecting hospitals and ambulatory surgery centers from surgical fire prevention experience
- + Ease of Use – Online secure access 24/7, mobile-friendly, interactive courses
- + Customizable – Add your facilities' surgical fire procedures to the training

COURSE OBJECTIVES

- + Fire prevention (for surgeons, anesthesia providers, nurses, surgical technologists and other providers in the surgical suites)
- + Fire suppression for fires on or in the patient as well other fires in the surgical and procedural area

- + Evacuation of a patient from a surgical or procedure area
- + Embedded videos demonstrating actual fire situations and correct/incorrect management of surgical fires
- + Knowledge testing questions and a post-test to ensure competency on the subject

ADAPTABLE LEARNING MANAGEMENT SYSTEM

Plug-and-play our course modules in your learning management system (LMS) or choose our system. Customize, control, and report on your training programs' progress with drag-and-drop functionality and mobile 24-hour access.

- + DIY Learning Plan Management
- + Fully Customizable Administration Privileges + Unlimited Groups
- + Robust Reporting and User Tracking
- + Simplified Content and User Import Features + Access Code Management
- + Subscription-Based Option

Couple this program with our hands-on education and evacuation exercises for surgical fire prevention and management with the Fire in The OR™ virtual reality simulation – you have the best worldwide training solution.

WIDELY RECOGNIZED EXPERTISE

The program is designed to ensure compliance with the baseline educational requirements of the following associations and authoritative bodies:

- + Centers for Medicare and Medicaid Services (CMS)
- + The Joint Commission
- + Det Norske Veritas (DNV)
- + Healthcare Facilities Accreditation Program (HFAP)
- + Accreditation Association for Ambulatory Health Care (AAAHC)
- + American Association for Accreditation of Ambulatory Surgery Facilities (AAAASF)
